A woman with short brown hair and blue-rimmed glasses is smiling and looking towards the left. She is wearing a light pink t-shirt and holding a tan-colored folder. In the background, several other people are seated in a classroom or lecture hall, some looking towards the camera and others looking away. The background is slightly blurred.

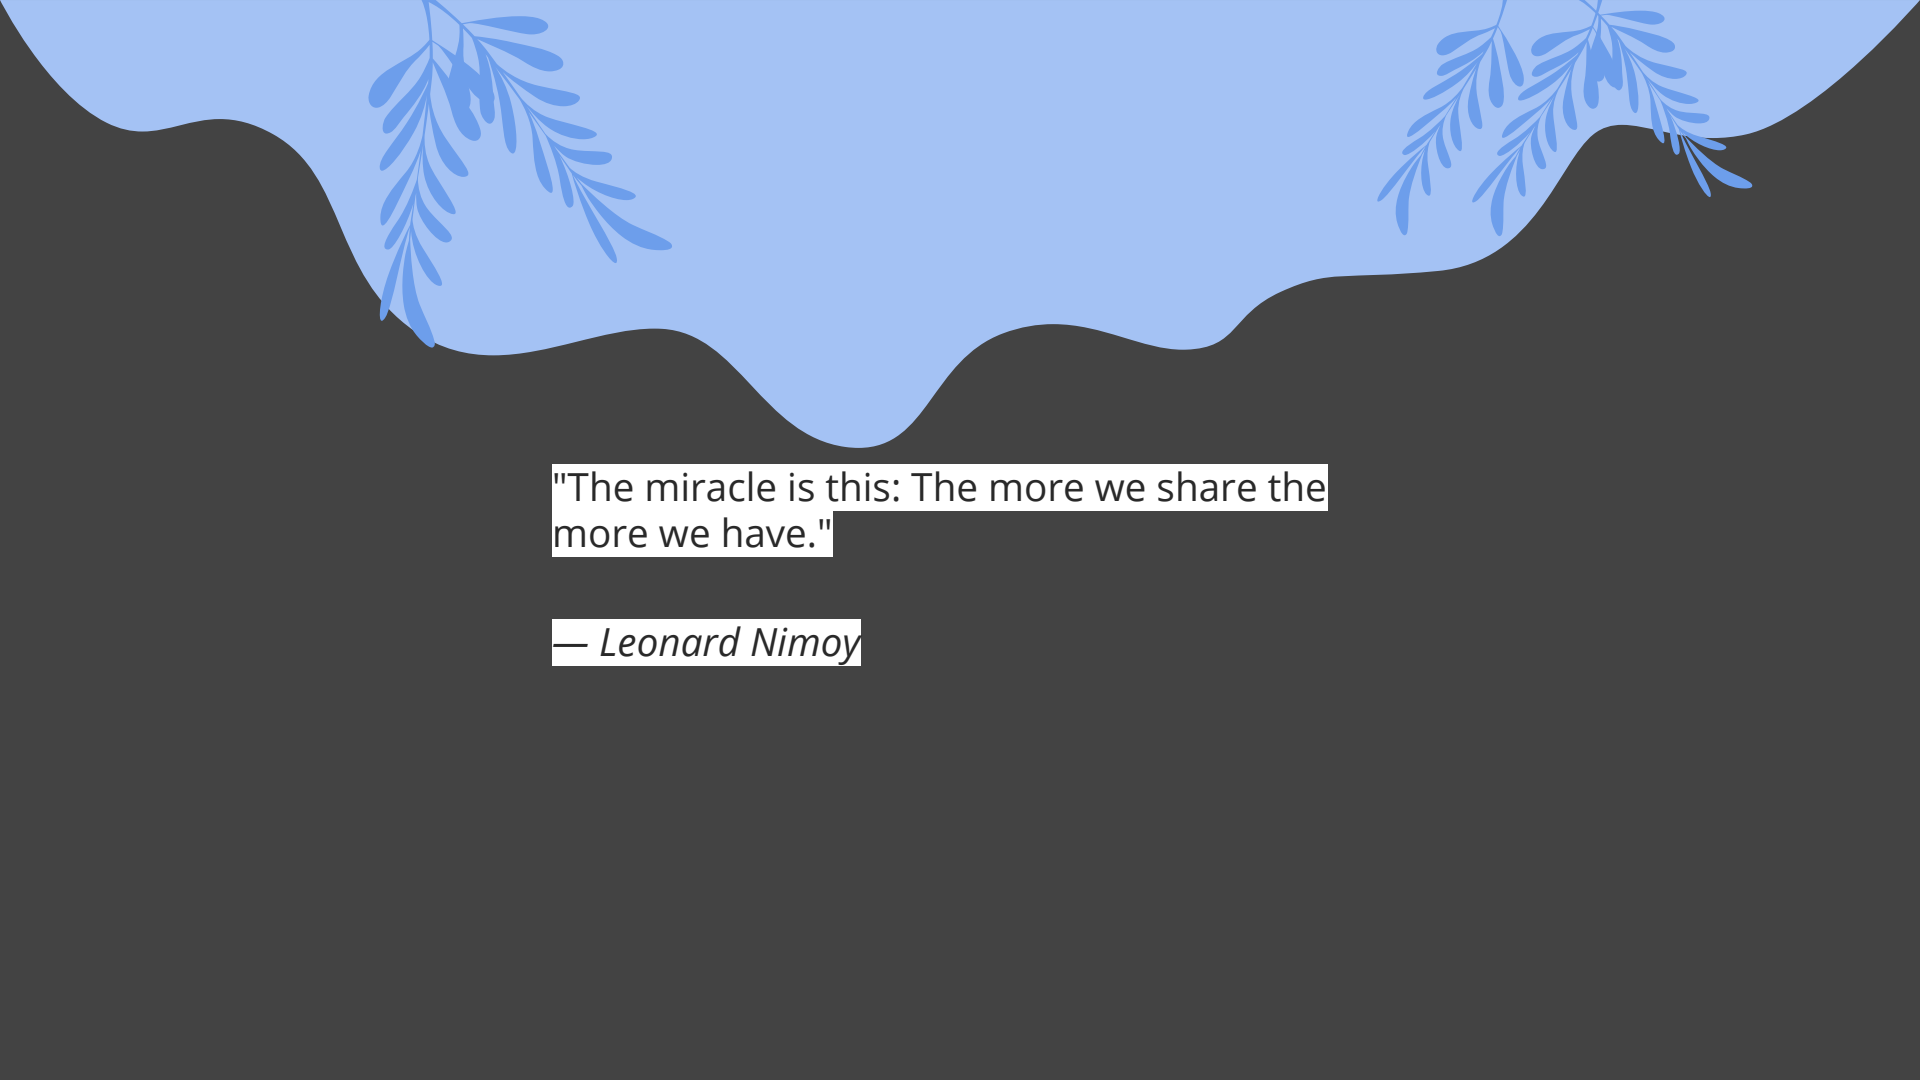

We have been observing the emerging opportunities of growing internet facilities in learning new things. The concept of learning new stuffs online is one of the examples.

Current situation and why our platform..

We have seen a few online platforms which allow us to share resources but we have not seen any good applications which not only allows us to share the resources but also teach us how to implement it.

Keeping this in mind, we have up with a unique platform that helps the users to share and learn from the resources along with idea to implement it while teaching, in a better way.

"The miracle is this: The more we share the
more we have."

— *Leonard Nimoy*

Teacher Journal

What comes into your mind??

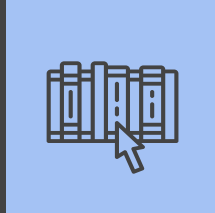

Introduction

Teacher journal is the platform for the intended users who want to learn or share teaching methodology i.e online site that offers unique opportunities for users to share contents users have created ourselves and to gain access to the content others have created and shared.

In addition to this...

Implement at your place

Our site provides additional feature called Teaching ideas where the registered users can get the idea to implement how to share the knowledge in better way.

Future plans

Due to time constraint, we could not include other features as planned. In future we expect to extend our platform and add the following feature

- Add bookmarks fields
- Add search fields with wide scope of searching
- Rate and review creators
- Badge and certificates to creators
